

Categories**A. OFFICCINO****1. Technical data**

A.1.1. The frame is made of steel pipes of circular cross-section $\Phi 26\text{mm}$ and 2mm thick. The pipes are connected to each other by invisible steel connectors. It has 2 wheels with brake at the rear and 2 plastic non-slip plugs at the front.

A.1.2. It has a surface layer of three layers of category E1, 18mm thick, with double-sided melamine coating and shock 2mm ABS in a variety of colors according to the price list.

The above surface can be coated with varnish of different colors.

A plastic cable rosette is placed on the surface.

A.1.3. It has optional:

- Table top partition made of 18mm three-layer particle board, lined on both sides internally with 5mm thick foam and externally with fabric of choice.

- The metal partition on which suitable shaped steel plates such as shelves and other accessories are placed.

A.1.4. The complete disassembly of the furniture makes it easy to transport and store.
